

**Mechanical Contractors Association Ontario**  
**Standard Provincial Welding Procedures Program**  
**Participant Declaration Form**

WHEREAS the Mechanical Contractors Association of Ontario, hereinafter call the "Association", has established standard provincial welding procedures for the use of UA affiliated firms in order to avoid retesting within a given year when welders who have authority to use such standard welding procedures move form employment by one UA affiliated firm to employment by another UA affiliated firm.

AND WHEREAS, these procedures have been duly recorded and approved by the Technical Standards and Safety Authority, hereinafter called the "TSSA";

AND WHEREAS, the Association and the TSSA have agreed that the Association shall be the agent of all UA affiliated firms for the purpose of facilitating movement of welders between such firms within a given year without retesting when the welding work is covered by the standard welding procedures in effect from time to time;

NOW THEREFORE, it is understood and agreed as follows:

This agency is for the limited purpose set out above, and in no way whatsoever does it relieve the Contractor signatory hereto from my responsibility imposed upon the Contractor under The Boilers and Pressure Vessels Act R.S.O. 1970, c. 47, and any Amendments and Regulations passed pursuant thereto.

It is further understood and agreed that the Contractor indemnifies and save harmless the Association from any and all claims arising from the agency outlined herein, from any claim arising from the responsibilities of the Contractor under The Boilers and Pressure Vessels Act, and from any claims arising in any way whatsoever from the use of the standard welding procedures.
